

Villa Calicantus

Villa Calicantus is a small winery, owned by the Delaini family, working in organic since the beginning (2011) and in biodynamic since 2014. We work 6 hectares of vines and we produce between 15000 and 17000 bottles.

Our idea of wine is simple: to show that Bardolino wine can be a great wine like it was before the 70's when enology and tourism started to destroy this great wine.

For this reason we work at low yields in the vineyards, we do not change anything in the wines (color, alcohol etc) and we age all the wines in wood, also the Chiaretto wine.

We produce 3 wines at the moment, a 4th wine is coming with the 2017's harvest.

- Chiaretto DOC: Corvina, Rondinella, Molinara and Sangiovese from young vines fermented and aged in barrels for 6 months.

- Bardolino Superiore Docg: Corvina, Rondinella, Molinara and Sangiovese from young vines aged in barrels for 12 months and in bottle for 12 months.

- Bardolino Superiore AVRESIR Docg: Corvina, Rondinella, Molinara and Sangiovese from old vines aged in barrels for 24 months and for 12 months in bottle.
